LOT 102 - 2022 Mower King 72" Skid Steer Vibratory Roller-Unused

Description

1. This product is suitable for skid steer loaders and small loaders.
2. Vibratory compactor is an ideal tool for road leveling, with high compaction flatness. It can roll sandy, semi-cohesive and semi-cohesive soil, stabilized roadbed soil and asphalt concrete pavement, etc.
3. Compared with large rollers, the vibratory compactor is flexible and easy to operate. It occupies a small area and has the characteristics of low capital investment.
4. Good excitation system and adjustable excitation force, which broadens the application range of road rollers.
5. The hydraulic system is equipped with a motor protection device to extend the service life of the motor.

Good excitation system and adjustable excitation force, which broadens the application range of road rollers.
The hydraulic system is equipped with a motor protection device to extend the service life of the motor.

Vibratory compactor is an ideal tool for road leveling, with high compaction flatness. It can roll sandy, semi-cohesive and semi-cohesive soil, stabilized roadbed soil and asphalt concrete pavement, etc.

Model SSVR.

Dimension(LxWxH) 85 × 32 × 38 in

Weight	1620.39 lbs
Drum Diameter	φ23.4
Dynamic Force	37 KN
Pressure	16-21 Mpa
Flow	16 GPM

Quantity: 1
