Shipping Available NO

Delivery Available NO

Description

Features

- Grapple capacity up to 3000 lb to handle jobs in forestry, recycling, scrap yards, demolition, agriculture and more
- 30" of working width and open end design allows you to work with varying sizes of logs, brush and awkward debris
- Heavy duty hydraulic cylinder grapple arm (with guard) operates under 3000 PSI of pressure for a heavy working capacity
- Greasable pins and bushings for simple routine maintenance that ensures this attachment's long-lasting lifespan and dependability

- Maximum 42" claw opening for versatile load grabbing capacity and flat bottom tines that glide effortlessly across the ground, minimizing ground disturbance
- Included hydraulic hoses and flat-face couplers for simple hookup and efficient energy transfer between the grapple and skid steer
- Universal mount that will fit most skid steers, turning it into a multi-use, versatile jobsite asset that is strong and reliable

- Hydraulic flow rate: 18-25 GPM
- Single hydraulic cylinder with protective guard
- Included flat face couplers and hydraulic hoses
- Greasable pins and bushings
- Universal skid steer mount
- Shipping weight: 410 lb

Product Description

The TMG-SLG30 Skid Steer Log Grapple features a heavy-duty hydraulic cylinder arm that can produce a grappling capacity of up to 3000 lb. A versatile attachment for your skid steer that can be used for a variety of applications including brush/log pick up, recycling, rock removal, scrap metal sorting and any sort of moving chore around your acreage, farm or job site.

Equipped with a universal mount for easy hookup to your skid steer and quick, efficient workflow. The maximum 42" claw opening works under 3000 PSI of pressure and is able to handle your most demanding log pickups, land clearing jobs and other heavy moving tasks. A flat bottom build slides effortlessly over the ground leaving the surface undisturbed, and overall heavy-duty construction will work through the toughest projects to ensure you get the job done.

30" of working width offers diverse grappling capabilities on your farm, commercial property or worksite. The double tine bottom design makes it easy for loose debris to sift through so you can efficiently manage the transport of bulkier material. Built to last with greasable pins and bushings for easy routine maintenance, and comes with included flat-face couplers and hydraulic hoses.
