Dimension 86.6" x 29.1" x31.5"

661.38 lbs

- **Spring shock absorbers**

Agrotk 84" skid steer snow plow is equipped with a pair of heavy duty spring shocks. These spring shocks absorb the impact and extend the life of your blade while maximizing efficiency. Great for clearing dirt on your job site or pushing snow off of your farm and driveway.

- **Universal skid steer connection**

This 4-way blade/plow is designed to connect to almost all models of skid-steer, including Bobcat, John Deere, Gehl, Case, New Holland and more.

- **A uniquely engineered A-frame**

A uniquely engineered A-frame allows for directional angle operations that can move 30° left or right so you can direct snow or debris away from paths and driveways or into piles.

This hydraulic snow plow is suitable for any brands of machine with 2600 psi pressure.

- Stainless Steel Mold Board-- resists rust due to scratches and wear
- Powered by a forceful hydraulic cylinder that operates under 2600 PSI of pressure for smooth, effective working action
- **Two industrial strength trip springs--absorb pressure and pushback from snow**
- Universal skid steer quick mount
- Hydraulic hose included

84" Hydraulic Skid Steer Snow Plow | AGT-SPA84
