LOT 132 - Anden AS35FP Steam Humidifier-Unused

Description

Anden AS35FP steam humidifiers are designed to help cultivators maximize yield and optimize plant health. The Anden Medium-Capacity Steam Humidifier with fan pack delivers reliable steam humidification to your grow room, capable of adding up to 277 pints (34.6 gallons) of moisture per day. This unit distributes steam evenly throughout your space, using a dedicated, built-in fan pack that is powered by the humidifier itself. This allows for ductless installation, making the AS35FP a versatile option for any space that needs tight humidity control.
