Product Description

The TMG Industrial 1000-lb air operating motorcycle lift is perfect for home garages, motorcycle shops, and detailing shops. The 10" side panel extended on each side makes the lift a 44" wide work-platform, which allows this lift to be used for ATV and other purposes of storage and repair in your garage and shop. This quality lift features a reliable scissor design, a diamond plate steel tabletop, a removable rear drop-out panel for easy removal of rear wheels, and a dolly system for easy transportation. This lift is ideal for both enthusiasts at home and professional shops..
