

Sale Name: CRANBROOK-September 27th, 2023

LOT 199 - TMG Industrial 40 Gallon Air Compressor-Unused

Description

Features

- Powered by a commercial grade Loncin 9 HP gasoline engine that provides heavy duty air compression for versatile trade and industry applications
- Hook up your nailing guns, staplers, sanders, grinders and more for roofing, framing, mobile tire, equipment and utility servicing
- Two-stage cast iron compression pump that is belt driven to produce superior air pressure capable of handling multiple tools over an extended period of time
- Air delivery of 18.7 CFM at 90 PSI for superior air compression performance that stands up to the toughest job site or workshop demands
- Designed with an air compressor unloader valve that serves to release any trapped air inside the engine for easy motor restart
- Forklift slot and truck-mounted ready design can be installed directly onto your service/work vehicle so you can bring the power wherever you go

- Engine will automatically idle down when the tank has filled up to avoid unnecessary overuse, reduce gas consumption and lower noise level

Specifications

- Tank capacity: 40 gal
- Max. pump running pressure: 175 PSI at 80% duty cycle
- Air delivery:
 - 14.5 CFM @ 175 PSI
 - 16.5 CFM @ 135 PSI
 - 18.7 CFM @ 90 PSI
 - 20.6 CFM @ 40 PSI
- Air outlet:
 - 2-1/4" NPT quick connect
 - 1-1/2" NPT ball valve
- 3 AMP battery charging circuit (battery not included)
- Powder-coated tank finish

Engine:

- Loncin G300FA 9 HP, 4-stroke, OHV, gasoline
- Displacement: 302 cc
- Regulated charging system
- Low oil shut down
- Start type: recoil/electric
- EPA compliance

Product Description

The TMG-GAC40 2-Stage 40 Gallon Air Compressor has a variety of applications across different trades and industries. Forklift slots make this compressor ready for mounting onto your truck or flatbed for versatile mobility and limitless overall utility. Powered by a reliable, commercial grade Loncin 9 HP gasoline engine that delivers 18.7 CFM at 90 PSI for superior air compression and performance.

A belt-driven, cast iron two-stage pump produces heavy-duty air pressure that can handle multiple tools at a time and extended use over long, hard days of work. Perfect for roofing, framing, tire, equipment and utility servicing. Place directly onto your work truck and bring the air compression power with you wherever you go.

Floating-type Swedish steel valve, ASME certified pressure release valve and liquid filled pressure gauges provide safe, accurate pressurized workflow and operation. Steel braided hoses, large cooling fins and NPT fittings ensure efficient air transfer from the compressor to your tools and give you an energy source you can depend on for many years to come.
