LOT 237 - TMG Industrial 48" Hydraulic Assist Post Hole Digger-Unused

Description

Features

- Versatile tractor attachment with several applications including digging holes for planting trees, putting in sign poles and installing fence posts
- Capable of drilling holes up to 48" deep with a 12" drill diameter using an aggressive cast steel, split-tip auger that easily cuts into any type of terrain
- Replaceable heat-treated cutting edges are strong, durable and built to last so you can use this auger season after season for many years to come
- Three position boom allows you to adjust the auger according to your terrain and modify the angle depending on what type of job your doing
- Continuous spiral cutting bit designed to avoid clogging and also effectively remove excavated dirt, rocks and debris after removing from the hole

- Handy attachment to keep in your barn or garage to use instead of renting similar equipment, hiring out or performing similar work manually
- 3-point shear pin shaft fits Category 1 & 2 hookups and is compatible with 35-65 HP tractors; included telescopic PTO driveline shaft
- Hydraulic cylinder assist to drive the auger into harder ground; oversized 3-point hitch A-frame with additional reinforcement

Specifications

- Auger diameter: 12"
- Max. auger depth: 48"
- Output bore: 2"
- Tractor horsepower: 35-65 HP
- PTO speed: 540 RPM
- Type of drive: Direct drive
- Category 1 & 2 hookup
- PTO driveline shaft included
-
- This product is packed in a metal crate shipping box
- Shipping dimension: 71" x 28" x 16" (L x W x H)
- Shipping weight: 565 lb

Product Description

The TMG-TDP12 48" Hydraulic Assist Post Hole Digger makes the drilling of holes on your farm, acreage, other residential or commercial property efficient and easy to do. A continuous spiral cutting bit is designed to avoid clogging and will drill holes up to 48" in depth and 12" in diameter. Perfect for preparing a property for tree planting or sign and fence installation.

A three-position boom allows you to adjust this digger according to your terrain so you can modify the angles depending on the type of job you want to do. It easily attaches to most tractors through its 3-point shear pin shaft linkage system that is compatible with Category 1 & 2 hookups and 35-65 HP tractors. Powered by an included PTO driveline shaft to draw power directly from your machine.

Overall heavy-duty construction makes this auger attachment durable and built to last for years of ground-breaking, hole digging performance. The fixed position design has been engineered to keep the auger from swinging prior to digging and upon removal. Excavate rocks, dirt and soil to install signs, put in fence posts or utility poles, plant trees and so much more.

TMG Industrial 48" Hydraulic Assist Post Hole Digger, 12" Auger,
