- Shipping weight: 80 lb

Product Description

The TMG-AJA50 50 Ton Air Hydraulic Bottle Jack is a versatile tool that is ideal for lifting most vehicles safely and reliably. With a minimum lift height of 12" and a maximum lift height of 18", this jack can accommodate a range of vehicle types and sizes, making it an essential tool for any garage, workshop, or mobile repair service.

A heavy-duty steel construction helps it handle loads up to 50 tons (100,000 lb), and ensure long-lasting durability with minimal wear. Also equipped with additional detachable handles for manual lifting, allowing you to lift your vehicle even in the absence of a compressor.

The small size of this jack makes it easy to transport to any location, while the built-in wheels and carrying handle allow you to easily maneuver around any shop. Comes included with both a hose and connector that allow you to quickly connect to an air compressor for immediate use.

TMG Industrial 50 Ton Air Hydraulic Bottle Jack, 12" Minimum Height, 18"
