Product Description

The TMG-ALM68 1500 Lb Motorcycle ATV Jack Lift is the perfect solution to all your powersports lifting needs. Whether you have a motorcycle, snowmobile, ATV, or UTV, this wide-load bearing jack has a lifting range of 5" to 16", and is designed to cater to all your maintenance or lifting demands, even for off-season storage.

The lift operates through a hydraulic system that has a load capacity of $\frac{3}{4}$ ton (1500 lb) and foot pedal operation making the lifting process effortless and smooth. It comes equipped with six locking positions and includes two locking swivel casters, a bottle jack, and a pulling bar, ensuring maximum stability and safety while lifting your powersports equipment.

Built from high-quality steel that makes this lift both sturdy and durable for long-term use. With its compact and efficient design, this jack is easy to store and transport, making it a perfect tool for home mechanics and professional workshops alike.
