Product Description

The TMG-GH616 Crystal Clear Greenhouse is a premium and reliable solution for all your gardening needs. Designed with elegance and durability in mind, this greenhouse is built to last with its lifetime rust-resistant aluminum frame. The sliding panel assembly system offers convenience and versatility, allowing you to control the airflow and temperature for long-lasting use and exceptional growing conditions.

This 6' x 16' greenhouse provides a nurturing environment for your plants while adding a touch of sophistication to your backyard or garden. A single-hinged door with locking handle offers easy and secure access, while the crystal-clear polycarbonate wall panels ensure over 90% light transmission - allowing your plants to thrive under optimal sunlight.

With two roof vents and four rain gutters included, this greenhouse provides excellent ventilation and water management, promoting a healthy growing environment for your plants, flowers, vegetables, and more. The integrated gutter system efficiently collects and diverts rainwater for your gardening needs, and the whole structure is securely rooted through the heavy-duty metal base and included floor anchors.
