Product Description

The TMG-HRG36 36" Gas Range is a powerful and versatile addition to any kitchen with a variety of burners ranging from 9000 BTU to 18000 BTU and a large 6 cu-ft oven capacity. The black porcelain drip pan and flat cast iron cooking grate make cleaning up after cooking easy, while the commercial convection fan ensures even and efficient cooking results every time.

Equipped with a broil burner of 10000 BTU and an L shape burner of 18000 BTU, this gas range can handle any cooking task with ease. The grey porcelain oven interior, two porcelain racks, and halogen light make it easy to monitor your food and ensure it's cooked with care and quality. With a three-layered glass window, this gas range not only looks sleek but also provides additional insulation and heat retention.

The black porcelain storage drawer provides ample storage space for all your cooking essentials. Whether using LPG or NG as fuel, this range is a CSA certified product that is safe to use, reliable, and efficient. Say goodbye to the limitations of traditional electric ranges and upgrade your cooking game with this impressive gas range.

TMG Living Kitchen 36" Freestanding Gas Convection Range, Commercial Convection Fan, 3-Layered Glass Window, 9000-18500 BTU, TMG-HRG36
