### Product Description

**The TMG-HRG36T, a fantastic 36-inch range top that will transform your kitchen into a world of culinary possibility. With the option to use either LPG or NG fuel, you can easily customize the way you cook. The range top has 6 burners, giving you plenty of space to cook up multiple dishes at once, whether you're simmering a sauce or searing a steak.**

The range top has a powerful burner at the front left with a single flame that can heat up to 18000 BTU. There's also a versatile burner on the front right with two flames that can heat up to 15000 BTU and an adjustable flame that can simmer at 680 BTU. In addition, there are three more burners at the back, each with a single flame that can heat up to 12000 BTU. The black porcelain drip pan and cast-iron cooking grates make cleaning up simple and easy to do.

There are six knobs on the control panel made of high-quality zinc alloy, which can adjust the heat level of each burner, and all light up with a beautiful blue LED light to make it easy to see which ones are on. Whether you're an experienced chef or just starting in the kitchen, this gas range cooktop is the perfect choice for anyone who wants to make excellent food with a quality product for years to come.
