

Sale Name: GREENWOOD-December 9th, 2023

LOT 68 - TMG Industrial 20'x30' Metal Garage Carport Shed-Unused

Description

Features

- Vertical metal roof panels help snow slide and prevent water buildup which decreases overall stress on the structure and reduces the risk of falling snow
- Standalone footplates anchor individually to the ground for superior support and overall structural integrity
- 10' open sidewall for easy access and airflow for working, moving things in and out or cleaning your car on beautiful days in the spring, summer and autumn
- Heavy gauge powder coated finish for the whole steel structure means a dependable, long lasting carport that is highly resistant to rust, wear and corrosion
- Roof and shoulder bracing supports added on all rafters for improved durability and weather resistance
- Stabilized steel cables installed for each rafter and on all four corners for extra stability and strength

- Storage solution for your pickup, boat, RV, 4-wheelers and farming equipment that offers all season access and overhead protection
- Easy and fast assembly: slip-fit frame and bolt-on connection; build it yourself with a couple of friends over a weekend
- Heavy-gauge galvanized metal roof panels with polyester paint coating on the surface provides another layer of protection and corrosion resistance

-
- Packed in a wood crate shipping box
- Shipping dimension: 87" x 38" x 18" (L x W x H)
- Shipping weight: 1620 lb

Product Description

The TMG-MSC2030 Metal Shed Carport is your new trustworthy outdoor covered vehicle storage solution. Standalone foot plates that anchor individually into the ground provide superior support and overall structural integrity. 10' open sidewalls accommodate the storage of your pickup, RV, boat, 4-wheelers or other farming equipment and offer all season access and overhead protection.

Over 1400 lb of heavy gauge galvanized metal with a powder coated finish protect this carport from the elements and make it highly resistant to rust, wear and corrosion. Robust metal roof and side panels have a surface polyester paint coating that provides another layer of protection which increases the lifespan and aesthetic quality. The vertical roof panels navigate moisture and help prevent snow buildup during the winter which decreases overall stress on the structure.

Quick assembly with an easy to build slip-fit frame and bolt-on connection provide a convenient, no-hassle startup that you can do yourself with a couple of friends. Approximately 600 square feet of covered space under a steel cable reinforced canopy that can be used to stockpile materials, park vehicles and do any type of outside work.

TMG Industrial 20' x 30' Metal Shed Carport, 10' Open Sidewalls, 600 Sq-Ft, 27 GA Corrugated Panels, TMG-MSC2030
