LOT 323 - TMG Industrial Abrasive Sandblaster w/Vacuum-Unused

Description

Features

- Ideal for the removal of paint, corrosion, rust, surface oxidation and more in a garage, machine shop or auto body repair center
- A powerful 90 CFM, 120V vacuum system blasts, collects and recycles up to 90% of abrasive material and dust to minimize clean up
- 28 gallon capacity tank features an easy flip-open lid that allows you to quickly load abrasive material and access the filter for maintenance
- 8' blasting and vacuum hose work together seamlessly and allow you to reach and operate at various angles in and around different implements
- 6" solid rubber tires and 4" front swivel casters make this sandblaster easy to maneuver around your shop and efficiently store when not in use

Product Description

The TMG-ABC28 Abrasive Sandblaster allows you to efficiently perform spot repairs and other small scale blasting operations in multi-use spaces without creating a mess. A 28 gallon tank and powerful 90 CFM, 120V vacuum system recycles 90% of abrasive material and dust while you effectively blast away rust, corrosion, paint, surface oxidation and more.

An 8' blasting and vacuum hose makes this product incredibly versatile in and around any automotive garage, machine shop, restoration and collision outfit or other commercial service center that requires any level of surface cleaning operations.
