LOT 331 - TMG Industrial 30" Self Propelled Gas Snow Blower-Unused

Description

Features

- Serrated steel augers easily work through light/heavy snowfalls, pulverize drifts, clear compacted snow and slush without all the hard labour of shoveling
- 30" operating width and 21" intake height will make quick work of buildup, larger snowfalls and all around tough winter seasons
- 120 V electric start will get this blower up and running in no time; recoil start also equipped for backup in case you ever need it
- Chute and tilt controls located on the top panel for easy access and can be adjusted to shoot snow up to 50' in any direction
- Heated hand grips provide unmatched comfort for the operator that allows a person to stay outside until the job is done, even in frigid temperatures
- One hand operation allows you to lock in the speed and adjust your chute controls without disengaging the drive

- Self-propelled rubber track drive with six forward and two reverse speeds that can adapt to whatever conditions you're working in
