LOT 220 - TMG Industrial 4-Post Auto Lift-Unused

Description

Features

- Great for classic car repairs, fluid checks/changes, commercial garages, home projects and increased vehicle storage space
- 9000 lb lift capacity and 77" lift height easily handles most cars, trucks and SUVs for dynamic storage and work possibilities
- Single hydraulic cylinder mounted underneath runway and powered by a 220 VAC, 3 HP, ETL Certified motor for smooth, steady lifting operation
- Lock ladder column design allows you to easily adjust the height of each column; widely considered the safest column design on the market
- Non-skid surface runway and anti-sway slider blocks in each column keep your vehicle in place during loading/unloading, work and storage
- Durable, industrial strength construction and manual safety release keeps you in control of any lowering action and reduces the risk of accidents

- Long approach ramps for low ground clearance vehicles that can be removed to further increase storage height underneath

- No-load speed: 3360 RPM
- Working pressure: 2600 PSI
- Tank capacity: 2.5 US gallons
- Pump oil required: AW32/AW46
- ETL certified for Canada and the US
- This product is packed in a metal crate shipping box
- Shipping dimension: 167" x 20" x 29" (L x W x H)
- Shipping weight: 1700 lb

Product Description

The TMG-ALF90 4-Post Auto Lift is an excellent choice for personal garages, small shops or general automotive service departments. With a 9000 lb lifting capacity and 77" lift height you can easily lift most cars, trucks and SUVs to fit another underneath or for mechanical work of any kind. Several safety elements have been built in to ensure a secure, reliable automotive work and storage solution that is heavy-duty and built to last.

This lift features a lock ladder column design which allows you to easily adjust the height inside each column. It is one of the safest columns on the market and the same system trusted by professional car dealerships and large automotive service centers. A non-skid surface runway and anti-sway slider blocks in each column help keep your vehicle in place during loading/unloading, work and storage.

A single hydraulic cylinder is mounted underneath the runway and is powered by a 220 VAC, 3 HP motor for smooth, steady lifting operation. This lift is versatile and can be used in any shop or home environment with three included drip trays for fluid checks, changes and repairs.

**TMG Industrial 4-Post Auto Lift, 9,000 lb Lift Capacity, 77" Rise,
