LOT 252 - TMG Industrial 72" Skid Steer Rock Skeleton Bucket Attachment-Unused

Description

Features

- Built to handle jobs in demolition, recycling, scrap yards, forestry, agriculture, landscaping, construction and more
- 72" of working width allows you to work with varying load sizes and awkward debris piles that need the loose material separated
- 4" skeleton tine spacing allows you to sift larger rocks from piles of dirt, gravel and other mixed aggregate that needs partitioning
- Serrated cutting edges will dig into the ground with the force of your skid steer to reach under the earth or heavy piles to process large loads
- Made from solid steel and has a tare weight of over 370 lb; no mechanical or moving parts so there will be little to no maintenance over the years

- Compatible with 45-70 HP medium frame skid steers; dependable attachment that can be used for a variety of purposes and stores easily when not in use
- Universal mount that will fit most skid steers, turning it into a multi-use, versatile jobsite asset that is strong and reliable

- Shipping dimension: 75" x 36" x 22" (L x W x H)
- Shipping weight: 400 lb

Product Description

The TMG-SB72 Skid Steer Skeleton Rock Bucket is made out of solid steel and built to last. Easily work through large quantities of dirt and other material to sift out rocks or other large debris in no time. This versatile attachment for your skid steer can be used for a variety of applications including recycling, rock raking, landscaping and any sort of moving chore around your acreage, farm or job site.

Equipped with a universal mount for easy hookup to your skid steer and quick, efficient switching between attachments. Commonly used for agricultural operations or landscaping work like land clearing.

72" of working width offers maximum workflow efficiency on your farm, commercial property or worksite. The serrated cutting edges and 4" skeleton tine spacing make it easy for loose debris to sift through so you can efficiently manage the transport of bulkier material.

TMG Industrial 72" Skid Steer Rock Skeleton Bucket Attachment, Solid Steel, Universal Mount, 4" Tine Spacing, 45-70 HP, TMG-SB72
