LOT 191 - TMG Industrial 1.5 Ton 5' Chain Hoist

Description

Features

- Perfect stationary and/or portable lifting/suspension solution for industries such as transportation, shipping, marinas, construction and more
- 3300 lb/1.5 ton lifting capacity makes this hoist versatile and adaptable to uses such as installing machines, moving parts and dragging bags

- Designed with a Weston-style, dual pawl brake design that splits the load to opposite sides of the ratchet gear for load balance and security
- Extremely robust grade 80 load chain with high-strength end connections is complemented by a low-alloy structural steel plate
- 360° rotary motion allows the industrial-rated alloy steel hooks to easily rig and maneuver your loads with reliable precision and maximum
 - Style/power source: Manual gear
 - Loaded capacity: 3300 lb/1.5 ton
 - Lift height: 5'
 - Required headroom: 15"
 - Load chain fall number: 1
 - Load chain diameter: 8 mm
 - Grade 80 load chain made for industrial loading
 - 2.5 times safety factor end anchor
 - Rubber capped, ergonomic & non-slip lever handle
 - Certification: ASME B30.21 & HST-3, approved by CE, GS certification
 -
 - This product is packed in a carton shipping box
 - Shipping dimension: 20" x 6" x 7" (L x W x H)
 - Shipping weight: 25 lb

Product Description

The TMG-AHL2 Lever Chain Hoist can be used in industries such as construction, transport and other areas for installing machines, lifting goods and dragging bags. A 3300 lb lifting capacity and 5' lifting height makes this hoist versatile and adaptable to your working environment, and is also ideal for portable use in workshops, factories, garages and more.

Designed with a Weston-style, dual pawl brake design that splits the load to opposite sides of the ratchet gear for load balance and security. The heavy-duty grade 80 load chain with high-strength end connections and a low-alloy structural steel plate are built to last in tough industrial environments, offering a high safety factor and long service life.

Industrial-rated alloy steel hooks rotate 360° for easy rigging and maneuvering of lifted objects, and the rubber capped, ergonomic and non-slip handle design allows for effortless lever operation even when handling heavy loads

**TMG Industrial 1.5 Ton 5' Lift Lever Chain Hoist, Twin Pawl Brakes,
ASME B30.21, TMG-AHL2**
