- Shipping weight: 290 lb

Product Description

The TMG-DCP1010 Outdoor Dog Kennel Playpen creates an easy to move, secure, spacious run for your dog or other pets to play outside while maintaining protection through the enclosed structure and overhead roof cover. Never worry about your animals running away, getting attacked or being stuck inside all day. This incredible outdoor kennel will give your dog the life of its dreams with lots of stimulation, smells and healthy fresh air.

Built from heavy-duty galvanized steel that has a baked-on powder coated finish to protect this pen from the elements and keep it strong, safe and secure for many years to come. It's durable and features a lockable door to prevent pets from running away or any type of predator from getting in. The heavy gauge chain-link wire mesh is reliable and will keep your pets safe while still allowing full visibility.

An overhead PE tarpaulin cover provides shade and UV ray protection, but is still light permeable enough to allow some sunlight to shine through. It keeps your pet dry so they can still go outside even when it's raining or snowing. All hardware is included and the quick slip-fit tube joints make for a fast, easy assembly.

TMG Industrial 10' x 10' Outdoor Dog Kennel Playpen w/Cover, Outdoor Dog Runner, Pet Exercise House, Lockable Gate, 6' Chain-Link Fence, TMG-DCP1010
