LOT 213 - TMG Industrial 12'x40' Tunnel Greenhouse-Unused

Description

Features

- Durable, warm, ventilated, year-round protection for your seedlings, flowers, herbs and other plant life that can be used personally or professionally
- Galvanized steel frame provides a sturdy construction that is rust resistant and corrosion free for long lasting, all-weather protection
- 6 mil EVA plastic film cover that diffuses direct sunlight through to store solar energy inside keeping your plants warm and happy
- No need for artificial lighting because of the covers light permeability; save money with natural growing conditions over time
- Hand crank roll-up sides (both sides) allow for adjustable ventilation and humidity so you can create optimal growing conditions year-round
- Approx. 4' wide walk-through door gives you a spacious opening to transport new additions, materials, tools and landscaping carts in and out

- Steel tubing constructed end frame for front and rear arches as well as wiggle wires to secure the film in lock channels
- Exact floor footprint: 12-½' (W) x 41-1/2' (L)
- Peak ceiling height: 7'
- Truss arches: Ø1-¼" – 18 GA
- Horizontal purlins: Ø1" – 19 GA
- 50" bay spacing
- 4' x 6' walk through door
- Steel tubing constructed end frame for front & rear arches
- Approx. 4' hand crank roll-up sides for ventilation & reduced condensation
- Lock channels & wiggle wires to secure films

Cover:

- 6 mil clear EVA plastic film
- Light transmittance: 92% - 96%
- Light diffusion: 20%
- Thermal effect: 80%
- Anti-fogging & anti-dripping
-
- This product is packed in a wood crate shipping box
- Shipping dimension: 87" x 29" x 14" (L x W x H)
- Shipping weight: 515 lb

Product Description

The TMG-GH1240 Tunnel Greenhouse Grow Tent is a sleek, professional growing structure for hobbyists and commercial growers alike. An EVA plastic film cover protects your sprouts, seedlings and flowers from the elements while still allowing direct sunlight to diffuse through for warmth and optimal growing conditions. This greenhouse is built with a rust resistant and corrosion free galvanized steel frame, creating a strong, stable and long-lasting solution for healthy plant growth.

Included wiggle wires make securing the plastic film overtop of the frame and into the lock channels simple and easy to do. Your plants will have plenty of room to grow and flourish under the approximately 480 sq-ft of covered space. Solar energy will seep through from all angles and be stored in the soil and inside the structure for a beautiful, budding ecosystem.

TMG Industrial 12' x 40' Tunnel Greenhouse Grow Tent w/6 Mil Clear EVA Plastic Film, Cold Frame, Hand Crank Roll-Up Sides, Peak Ceiling Roof, TMG-GH1240
