LOT 233 - TMG Industrial SS Tilt-N-Scoop Material Spreader-Unuser

Description

Features

- Use to spread salt, feed, fertilizer, sand and any other spreading material; wide range of applications in all seasons year-round
- Tilt-N-Scoop feature means you don't even have to get out of your skid steer to easily load up the 10 cu-ft capacity of this material spreader
- Steel agitator is powered by a reliable Permco hydraulic motor that produces consistent material flow and discharge for even spreading
- The removable sidewalk skirt can be installed to contain the spreading range to a finer width allowing you to target narrower pathways
- Spreading range of up to 30' will allow you to quickly fertilize larger fields, spread salt for fast ice melting or efficiently disperse feed for livestock
- A protective grate helps to prevent clogging of materials when scooping and the flow rate is easily adjusted through a manually operated gate
- Universal quick attach mount allows you to easily hook up to your skid steer and dismount for simple storage and transition between attachments

-
- Load capacity: 10 cu-ft
- Spreading range: Up to 30'
- Working flow: 6.5-12 GPM
- Working pressure: 1300-1700 PSI
- Permco hydraulic motor
- Protective grate
- Removable sidewalk skirt
- Flat face couplers & hydraulic hose included
- Universal skid steer mount
-
- This product is packed in a wood crate shipping box
- Shipping dimension: 52" x 36" x 47" (L x W x H)
- Shipping weight: 540 lb

Product Description

The TMG-MSS10 Skid Steer Tilt-N-Scoop Material Spreader allows you to cover a large area with salt, sand, feed, fertilizer and any other spreading material with incredible ease and efficiency. You won't even need to get out of your skid steer with its dynamic tilt and scoop function for easy loading as well as a protective grate on the top that helps prevent clogging. Equipped with a universal skid steer mount and usable year-round in a wide variety of applications.

Easily adjust the flow rate of this spreader through its manually operated gate for a maximum spreading range of up to 30'. For narrower pathways you can use the removable sidewalk skirt that helps keep material contained to a finer width, great for melting ice in the winter or spreading rows of fertilizer in the spring and summer.

A reliable Permco hydraulic motor powers the steel agitator for consistent material flow while you're spreading, and with this attachment's 10 cu-ft capacity you'll be able to manage even larger areas with a single scoop.

TMG Industrial Skid Steer Tilt-N-Scoop Material Spreader, 10 Cu-Ft Capacity, 30' Wide Spread Range, 6.5-12 GPM Flow Rate, Sidewalk Skirt, Universal Mount, TMG-MSS10
