 - Twin hydraulic cylinder grapple arms with protective guards
 - Universal skid steer mount
 -
 - This product is packed in a metal crate shipping box
 - Shipping dimension: 72" x 42" x 31" (L x W x H)
 - Shipping weight: 1050 lb

Product Description

The TMG-RG72 Skid Steer Root Rake Grapple Attachment features twin hydraulic cylinder arms that can produce a grappling capacity of up to 3000 lb. A versatile attachment for your skid steer that can be used for a variety of applications including brush/log pick up, recycling, root raking, scrap yard sorting and any sort of moving chore around your acreage, farm or job site.

Equipped with a universal mount for easy hookup to your skid steer and quick, efficient workflow. The reinforced weld-on curved teeth slide effortlessly over the ground leaving the surface undisturbed, and 3" x 3" primary cross beams create an overall heavy-duty construction that will work through the toughest projects and ensure you get the job done.

72" of working width offers diverse grappling capabilities on your farm, commercial property or worksite. The 53" maximum jaw opening can clamp closed to a tight 13" so you'll have a solid grip on any kind of heavy load. Built to last with greasable pivot pins that have a bolt-locked design for easy routine maintenance, and comes with included flat-face couplers and hydraulic hoses.

TMG Industrial 72" Skid Steer Root Rake Grapple Attachment, Universal Mount, 53" Jaw Opening, 9" Tine Spacing, 3000 lb Weight Capacity, TMG-RG72
