

Sale Name: CRANBROOK, BC-MAY 8th, 2024

LOT 246 - TMG Industrial Semi Automatic Tire Changer-Unused

Description

Features

- Essential for your small to medium sized tire shop or general automotive service department to save time, money and labour
- Four self-centering jaws with dual pneumatic cylinders for rim clamping capacity from 14"-28" to fit most standard vehicle tires
- Plastic covers on each jaw tooth safeguard wheel contact points to leave customer's tires and rims free of marks and scuffs after installation
- Tilt-back tower design and a turntable with clockwise and counterclockwise rotation for simple tire mounting and dismounting
- Step pedal controls allow the user to focus on their work, maximizing safety and giving them total command over the machine's operation
- Bead blaster system and external air tank pushes high pressured air into low profile & hard to set tires making them easier to work with

- Optional pneumatic powered assist arm exerts enormous pressure and allows for the changing of modern stiff sidewall tires
