- Handle locking mechanism
-
- This product is packed in a wood crate shipping box
- Shipping dimension: 64" x 19" x 10" (L x W x H)
- Shipping weight: 220 lb

Product Description

The TMG-AJL05 Long Reach Chassis Service Jack has a 5 ton (11,000 lb) lifting capacity and easy to operate foot pedal for all your undercarriage mechanical, tire change, and general equipment or vehicle lifting needs. Its long chassis design easily reaches under most vehicles and any other special needs in your shop, barn or garage.

A sealed cast iron pump base operates twin pistons for faster rising action with a slowdown function for safety and controlled lifting under the chassis of the vehicle. The rear caster wheels pivot 360° for superior maneuverability, storage and positioning.

With a smooth hydraulic lifting action and maximum height of 22" you'll have plenty of room to perform your work. The handle has a versatile locking mechanism and air release valve for reliable, heavy-duty lifting assistance. Ideal for fleet service, maintenance shops and commercial vehicle service bays.

TMG Industrial 5 Ton Long Reach Chassis Service Jack, Twin Pistons, 6-1/2"
