

Sale Name: CRANBROOK, BC-MAY 8th, 2024

LOT 263 - TMG Industrial 22 Ton Pro Air Hydraulic Axle Jack-Unused

Description

Features

- 22 ton (48,000 lb) lifting capacity for all your undercarriage mechanical, tire change, equipment or vehicle lifting needs
- Long handle gives you plenty of reach to easily lift vehicles or equipment with long overhangs and adjust the height between 9" and 17"
- Vertical top is powered pneumatically so you can use this jack when you are near an air supply
- External double tension spring structure that ensures restoring forces for a gentle lowering action and less wear on the jack

- Air filter is built right into the pneumatic switch to help mitigate the chances of debris entering into and damaging the unit over time
- Capacity: 22 ton (48,000 lb)
- Minimum height: 9" (220mm)
- Maximum height: 17" (435mm)
- Ram lift: 4" (110mm)
- Screw extends: 4" (105mm)
- Air pressure: 100-175 PSI
- Net weight: 99 lb
- Finish: Orange + black
- Material: All steel
-
- This product is packed in a wood crate shipping box
- Shipping dimension: 27" x 15" x 10" (L x W x H)
- Shipping weight: 105 lb

Product Description

The TMG-AJX22 Air Hydraulic Axle Jack has a 22 ton (48,000 lb) lifting capacity for all your undercarriage mechanical, tire change, and general equipment or vehicle lifting needs.

Vertical top is powered pneumatically so you can use this jack when you are near an air supply.

The external double tension spring structure ensures restoring forces, and an air filter has also been built into the pneumatic switch to reduce the chance of debris making its way into the unit. These features combine for reliable lift assistance that will serve you for many years to come.

**TMG Industrial 22 Ton (48,000 lb) Professional Air Hydraulic Axle Jack,
Pneumatic Control, Double Springs, 17" Lift Height, TMG-AJX22**
