 -
 - This product is packed in a carton crate shipping box
 - Shipping dimension: 35" x 18" x 17" (L x W x H)
 - Shipping weight: 55 lb

Product Description

The TMG-ABT20 Portable Sandblasting can accommodate a variety of abrasive substances and allows you to effectively clean, polish and finish several types of surfaces and materials. Removes rust, paint, corrosion, surface oxidation and more. Utilizes 6-25 CFM of airflow and is designed to be used with 60-125 PSI of pressure.

A 20 gallon tank comes complete with a filling funnel, spray nozzle and 8' blasting hose that allows you to cover a large working area. This sandblasting tank is perfect for automotive garages, machine shops, restoration and collision outfits or other commercial service centers that require any level of surface cleaning operations.

The steel deadman shutoff handle, adjustable flow valve and 125 PSI pressure relief valve offer maximum safety and variability to the operator. 5" durable, solid rubber tires and built-in handle make this sandblaster easy to maneuver and transport

TMG Industrial 20 Gallon Portable Sandblaster, 125 PSI, 25 CFM, 8' Hose, 5" Rubber Wheels, Filling Funnel, TMG-ABT20
