- Shipping weight: 80 l

Product Description

The TMG-ARB10 10 Ton Auto Body Repair Kit is a complete repair system that includes a variety of components to help you lift, push, pull, bend, straighten, and spread. With its hydraulic ram system, this kit is perfect for body work, frame repair, and construction. It includes a variety of components to cater to a range of different needs.

The pump features an automatic overload system that helps prevent damage to rams and equipment, making it a safe and reliable choice for all your repair needs. Its flex head has a permanently molded rubber pad that is interlocked to prevent separation, ensuring maximum stability and safety while in use.

The 10 Ton (20,000lb) kit capacity is complemented by the minimum ram height of 11" and a ram lifting height of 5". With its compact and portable design, this kit is an ideal choice for DIY enthusiasts, auto body shops, and construction sites alike
