LOT 298 - TMG Industrial 72" Extreme HD SS Brush Cutter-Unused

Description

Features

- Use at your home, farm, commercial property or jobsite to clear brush, deadwood, brambles, briars, saplings, other small trees and more
- 72" of working width makes the clearing of larger areas fast, efficient and easy to do with reliable, high performance cutting action
- Save money by having this attachment on hand and making your skid steer more versatile; no need to rent larger equipment
- Front push bar topples even taller trees with small diameter trunks to the ground and flattens dense bush so it fits under the mower deck
- Four ½" heavy-duty steel cutting blades chew through vegetation and turn it into a nicely sized mulch that decomposes and nourishes the ground
- Low profile deck design is only 28 high making it easy to store in the off season when it needs to sit in your shed, barn or garage
- Equipped with a universal quick attach mount that fits most skid steer makes and models; also includes hydraulic hoses and flat face couplers
 - Skid steer power recommended: 50-100 HP

- Overall size: 84" x 77" x 28" (L x W x H)
- Cutting width: 72"
- Cutting blades: 4
- Blade type: Double edge, drop down
- Blade thickness: ½"
- Blade material: 65 Mn steel
- Blade holder thickness: ¾"
- Hydraulic flow required: 27-35 GPM
- Minimum cutting height: 2-½"
- Maximum cutting diameter: 8"
- Deck steel thickness: ¼"
- Maximum operating pressure: 3600 PSI
- Hydraulic motor with oil-in, oil-out & 3rd case drain line
- Drive system: Direct drive
- Rear chain guard
- Hydraulic hoses & flat face couplers included
- Universal quick attach skid steer mount
-
- This product is packed in a metal crate shipping box
- Shipping dimension: 87" x 79" x 31" (L x W x H)
- Shipping weight: 2120 lb

Product Description

The TMG-SBC76 Extreme Heavy Duty Skid Steer Brush Cutter delivers devastating high performance cutting power in a low profile, flat deck design that is easy to store when not in use. Equipped with a universal quick attach mount to fit most skid steers, this brush cutter easily chews through saplings, brambles, briars, small trees and more. For use in a wide array of industries from forestry and agriculture to land clearing and property development.

72" of working width makes the clearing of larger areas fast, efficient and easy to do. You'll save time and money at your farm or wooded property by having this brush cutter on hand instead of renting larger equipment. Better to be self-sufficient with this reliable attachment that you can depend on for many years to come.

A front push bar topples small diameter trees while the four ½" steel cutting blades turn any kind of vegetation into an evenly sized mulch that will decompose and nourish the ground. Whether you're looking to utilize new space or just clear up old growth, this economical brush cutter is built to last and will get the job done
