

Sale Name: CRANBROOK, BC-MAY 8th, 2024

LOT 7 - TMG Industrial 40' High Cube Container-1 Tripper

Description

Lots 7, 12, 13, 14, 148, 150, 239 & 470 are grouped together. Timed grouping of lots allows similar lots to be bundled together and sold. This gives interested buyers the option to bid on one lot or multiple lots within the group with all lots remaining open until bidding ends for the group. Each lot can be sold at a different price and/or to a different buyer.

- Cubic capacity: 2590 cu. feet
- Side door dimension: 98" x 92" (W x H)
- Inside dimension: 475" x 90" x 104" (L x W x H)

Product Description

The TMG-SC40S 40' High Cube One-Way Shipping Container with full side-open doors are custom made to use for storage and freight transportation in industries like construction, mining, agricultural, oilfields and import/export. All containers are manufactured with CSC approval to meet international ocean cargo freight standards and one-way use to transport TMG products from overseas and discharge on TMG client's facilities in the USA and Canada. TMG Industrial delivers approximately 1500 containers in Northern America annually.

This is a great solution for temporary outdoor, off-site storage for anything used on the job, with the capacity to be moved around to subsequent job sites when a project has been completed. With access from the wide, full-open side doors, extra-long materials or equipment can be loaded and unloaded easily from the side without having to try and maneuver everything through the front. We have also been seeing them used for small rental businesses by adding the barriers inside between each door to make it into four small rental units.

TMG Industrial 40' High Cube Side-Open Shipping Container, One Way Use, Security Lock Boxes, Ocean Sea Can Standards, TMG-SC40S
