

Sale Name: GREENWOOD, BC-JUNE 15th, 2024

LOT 145 - TMG Industrial 10,000W Dual Fuel Generator-Unused

Description

Features

- 459cc displacement, four-stroke air-cooled OHV engine
- Efficient, high-performance alternator
- Easy reach control panel
- AVR system and electronic ignition
- Weather resistance covered outlets
- Never flat maintenance free wheels
- One-touch electric start
- 8.5 hours run time at 50% load charge
- 78 dB operation
- (4) 120V AC 20A 5-20R outlets
- (1) 120V AC 30A L5-30R outlet
- (1) 120/240V AC 50A 14-50R outlet
- (1) 12V DC outlet

- Emission compliance: EPA compliance
- Electric safety certification: CSA certified

Specifications

- Starting watts: 10000 (Gas) | 9500 (LPG)
- Running watts: 8000 (Gas) | 7500 (LPG)
- Rated frequency: 60Hz
- Rated voltage: 120/240V AC
- Phase: single
- Insulation class: F
- Factor: 1.0
- Fuel tank capacity: 25L
- Max ambient temperature: 40 °C
- Engine oil supplied: 1.1Qt. 10W-30
- DC output: 12Vdc, 11A
-
- This product is packed in a carton shipping box
- Shipping dimension: 33" x 22" x 24"
- Shipping weight: 240 lb

Product Description

The TMG Industrial 10000-Watt Dual Fuel Generator (gasoline and LPG) is ideal for job sites, remote locations, cabins and more. This highly versatile generator can switch on the fly between gas and LPG. One-touch electric start makes this generator easy to start in the dark during a power outage, and a 25-litre fuel tank provides a run time of 8.5 hours at 50% load with a quiet operating volume of 78 dBA. A powerful 459cc OHV engine connected to an efficient, high-performance alternator allows this generator to power refrigerators, pumps, air conditioners, lights, TV, and more all the same time. The GFCI-protected outlets, weather-resistant outlet covers and solid 1-1/4" heavy-duty frame make this generator safe to use and durable enough to handle job site conditions. Added bonuses are the never-flat solid wheels and 12V DC plug with a USB adapter.

TMG Industrial 10,000-Watt Dual Fuel Generator (Gasoline and LPG) with Electric Start, 8.5 Hour Run Time, TMG-10000GE

Lots 145, 146, 149, 232 and 253 are grouped together. Timed grouping of lots allows similar lots to be bundled together and sold. This gives interested buyers the option to bid on one lot or multiple lots within the group with all lots remaining open until bidding ends for the group. Each lot can be sold at a different price and/or to a different buyer.
