

Sale Name: GREENWOOD, BC-JUNE 15th, 2024

LOT 159 - TMG Industrial Mid-Rise Portable Automotive Scissor Lift-Unused

Description

Features

- Ideal for repairs, body work, fluid changes and more on various types of vehicles including SUVs and light-duty trucks with the included adapters
- Two heavy-duty hydraulic cylinders work under 2650 PSI of pressure and provide smooth, steady lifting operation
- A portable, 120 V, 3 HP cart-mounted power unit provides easy mobility around your shop and garage to accommodate your unique workflow
- Adjustable lifting arm assemblies offer a maximum lift height of 48" which is a perfect mid-rise height to work on and underneath most standard vehicles
- High-strength safety lock bar with multiple positions ensures your vehicle stays in place and reduces the risk of damage and injury
- Single point lock release provides an additional safety feature that leaves the operator in total control of vehicle lowering

- Compact, flat lay-down design provides space-saving storage and the heavy-duty steel caster wheels make this lift easy to move on different surfaces

Product Description

The TMG-ALS61 Mid-Rise Portable Automotive Scissor Lift is an excellent choice for personal garages, small shops or general automotive service departments. With a 6000 lb lifting capacity and 48" lift height you can easily lift most cars, trucks and SUVs for repair work, fluid changes and more. Complete with a portable power unit and a compact, flat design for easy mobility and storage.

This lift features two heavy-duty hydraulic cylinders and adjustable lifting arm assemblies that provide smooth, steady lifting operation and make it suitable for working on various types of vehicles. They're powered by the portable, 120 V, 3 HP power unit that is cart-mounted and can easily move around your shop or garage.

A high-strength safety lock bar with multiple lock positions and a single-point lock release keep your vehicle safe and secure while you work on it. The industrial, economical construction makes this scissor lift perfect for people transitioning from jacks or stands, and is a popular choice in many service bays, detail shops and home garages with low ceilings

TMG Industrial Mid-Rise Portable Automotive Scissor Lift, 6000 lb Lift Capacity, 48" Lift Height, Single-Point Lock Release, TMG-ALS61
