Flow	10 GPM-25 GPM
Yaw Angle	$\pm 30^\circ$ (left and right)
Brush Diameter	31.49"
Number of wafers	41
Core Diameter	8"
Dimension	89" x 47" x 24"
Weight	672.4 lbs

1. Floating linkage design keeps the broom adaptable to the road surface properly and consistently, reducing the bristles wearing.
2. Adjustable protection metal stand.
3. Hydraulic hoses included.

4. The case drain line (the third hose) provides an option to release motor case pressure, alternatively extending the motor's lifetime.
5. Bi-directional rotation bristles.
6. A motor protection guard frame was installed.

Quantity: 1
