LOT 482 - TMG Industrial 24" Tire Changer-Unused

Description

Features

- Essential for your small to medium sized tire shop or general automotive service department to save time, money and labour
- Four self-centering jaws with dual pneumatic cylinders for rim clamping capacity from 12"-24" to fit most standard vehicle tires
- Plastic covers on each jaw tooth safeguard wheel contact points to leave customer's tires and rims free of marks and scuffs after installation
- Classic horizontal swing arm and a turntable with clockwise and counterclockwise rotation for simple tire mounting and dismounting
- Step pedal controls allow the user to focus on their work, maximizing safety and giving them total command over the machine's operation
- Optional clamping adapters will expand the tire changer to work with motorcycle, golf cart and ATV tire and wheel assemblies

- Optional pneumatic powered assist arm exerts enormous pressure and allows for the changing of modern stiff sidewall tires

- Shipping dimension: 44" x 30" x 34" (L x W x H)
- Shipping weight: 430 lb

Product Description

The TMG-TC24 Semi-Automatic Tire Changer is a fundamental machine for your small to medium sized tire shop or general automotive service department. Ensure maximum protection and efficiency changing tires of all size, style, brand and class without damaging the rim or tire itself. Save yourself and your employees exhausting labour and make everyone's day a little easier with this electrically powered, compact automotive shop essential.

Equipped with a reliable 120 VAC, single phase electric motor which provides ample power production for separating a tire from the rim smoothly and repetitively. Four heavy-duty self-centering jaws with dual pneumatic cylinders have a rim clamping capacity of 12"-24" to fit most standard tires for several vehicle makes and models. Covers on each jaw tooth safeguard wheel contact points and leave customers with a flawless tire change experience.

Step pedal controls allow the user to focus on their work and have total command over the machine's operation. Horizontal swing arm and clockwise/counterclockwise turntable makes the mounting and dismounting of tires straightforward and easy to do with little strain.

TMG Industrial Semi-Automatic Tire Changer, 12"-24" Rim Clamping Capacity, Step Pedal Control, 2 HP Motor, Certified For Canada/USA, TMG-TC2

▪ Lots 284, 482 are grouped together. Timed grouping of lots allows similar lots to be bundled together and sold. This gives interested buyers the option to bid on one lot or multiple lots within the group with all lots remaining open until bidding ends for the group. Each lot can be sold at a different price and/or to a different buyer.
