- Material: Steel
- This product is packed in a wood crate shipping box
- Shipping dimension: 50" x 8" x 6" (L x W x H)
- Shipping weight: 97 lb

Product Description

The TMG-ASP12 Hydraulic Shop Press is an essential piece of equipment for automotive shop, machining, metalworks, fabrication, or assembly operations. 12 tons of pressing capacity and a heavy duty H-frame makes pushing bearings onto shafts, stamp work, bending or flattening metal safe, efficient and easy to do.

Hand crank bottle jack pressing allows you to easily adjust the pressing bed up and down. Eight bed height positions offer superior workpiece flexibility that will adapt to your specific work setting and requirements.

TMG Industrial 12 Ton Capacity Hydraulic Shop Press, H-Frame, Hand Crank
