LOT 117 - TMG Industrial 94" Skid Steer Dozer Blade-Unused

Description

Features

- Compatible with skid steers of at least 30 HP for versatile applications such as land clearing, grading, backfilling, snow plowing and more
- 94" of working width makes quick work of bigger jobs like road grading, parking lot snow clearing or trench backfilling
- Unique engineered A-frame and pivot mechanism for directional angle operations to guide buildup and work along curved edges; 30° left/right
- Bolt-on replaceable cutting edge is easy to maintain, built to last and maintain its sharpness against tough ice, roots and rocks
- Two trip springs help absorb pressure and pushback from snow, dirt and debris so you protect your skid steer from excessive wear and tear

- Heavy-duty hydraulic cylinder powers the left/right angle capabilities and operates under 2600 PSI of pressure for a steady, smooth working action
- Adjustable skid shoes allow you to modify the height for desired use and protect your machine against dead stops on cracks, curbs and stone

Specifications

- Skid steer power recommend: at least 30 HP
- Working width: 94"
- Left and right angle: 30°
- Blade: 10 GA
- Cutting edge: ½"
- Hydraulic pressure: 2600 PSI
- Universal skid steer quick mount
- Hydraulic hose included
- This product is packed in a metal crate shipping box
- Shipping dimension: 96" x 30" x 24" (L x W x H)
- Shipping weight: 640 lb

Product Description

The TMG-DB94 Skid Steer Dozer Blade/Snow Pusher is an all-year functional attachment that can be used for grading, land clearing, backfilling, trenching, snow plowing and so much more. A uniquely engineered A-frame allows for directional angle operations that can move 30° left or right so you can direct snow or debris away from paths and driveways or into piles. This blade also features a universal quick mount that fits most skid steer makes and models.

A heavy-duty, bolt-on replaceable cutting edge stands up to tough ice, rocks and roots for unmatched work capacity and long-term durability. The pivot mechanism is powered by a forceful hydraulic cylinder that operates under 2600 PSI of pressure for smooth, effective working action. Its 94" width makes quick, efficient work of bigger jobs and will keep scraping hard snow and leveling rough terrain until the job gets done.

Two industrial strength trip springs absorb pressure and pushback from snow, dirt and debris build up while plowing/dozing. Adjustable skid shoes protect your machine from dead stops on cracks or curbs, allowing you to modify the height depending on specific job requirements.

TMG Industrial 94" Skid Steer Dozer Blade/Snow Pusher, 30° Left & Right, Bolt-On Cutting Edge, Adjustable Skid Shoes, Universal Quick Mount, TMG-DB94

· Lots 117, 172 are grouped together. Timed grouping of lots allows similar lots to be bundled together and sold. This gives interested buyers the option to bid on one lot or multiple lots within the group with all lots remaining open until bidding ends for the group. Each lot can be sold at a different price and/or to a different buyer.
