Product Description

The **TMG-MG20 Bi-Parting Deluxe Wrought Iron Ornamental Gate** screams elegance from the moment you pull up to your property. Welcome everyone home with class and protect your investments at the same time with this decorative, 100% forged steel ornamental gate. Artisan, hand-painted golden flowers and caps adorn wrought iron pickets that exude luxury with a mixed feeling of vintage and contemporary style. Guests will be astonished by the way this gate accentuates your commercial property, home, acreage or farm from the moment they arrive.

Galvanized, solid forged steel and baked on powder coating provide a double layer of protection to keep your new entrance free of rust and wear for many years to come. This product will require almost zero maintenance compared to other models on the market made of lightweight, lower quality materials that often need to be touched up and repainted. Our wrought iron gate is highly resistant to weather and will stand up to the elements even in remote and rural areas.

Fully welded steel and overall heavy-duty construction of the TMG-MG20 ensures a structure that is high quality and secure, built to protect and complement the residential or commercial property it surrounds.

**TMG Industrial 20-ft Bi-Parting Deluxe Wrought Iron Ornamental Gate,
100% Solid Forged Steel, Powder Coated, TMG-MG20**

Lots 50-54, 133 are grouped together. Timed grouping of lots allows similar lots to be bundled together and sold. This gives interested buyers the option to bid on one lot or multiple lots within the group with all lots remaining open until bidding ends for the group. Each lot can be sold at a different price and/or to a different buyer.
