LOT 142 - TMG Industrial 48" Post Hole Auger Drive-Unused

Description

Features

- Versatile skid steer attachment with several applications include digging holes for planting trees, putting in sign poles and installing fence posts
- Capable of drilling holes up to 48" deep; includes one 12" auger bit but can accommodate a bit up to 48" in length
- Precision designed high-grade direct drive planetary gear system delivers high torque and accuracy in a compact package
- Pressure rating of 2250 PSI and designed to operate on machines with a 5-17 GPM flow rating for consistent, high output work capacity
- Locking collar to keep the auger from swinging while driving, before digging and upon removal for pinpoint accuracy and a clean finished product
- Continuous spiral cutting bit designed to avoid clogging and also effectively remove excavated dirt, rocks and debris after removing from the hole

- Included flat face couplers, hydraulic hoses and a universal mount that makes this auger compatible with most skid steer makes and models

Specifications

- Skid steer loader power recommended: 30-75 HP
- Flow rating: 5-17 GPM
- Max pressure: 2250 PSI
- Drilling Depth: 48"
- Overall length: 80"
- Mounting plate height: 20"
- Mounting plate width: 48"
- One 12" auger bit included
- Reversible drive
- Hydraulic hoses and flat-face couplers included
- Universal skid steer mount
-
- This product is packed in a wood crate shipping box
- Shipping dimension: 51" x 38" x 32" (L x W x H)
- Shipping weight: 620 lb

Product Description

The TMG-SAG12 Skid Steer Post Hole Auger Drive Attachment makes the drilling of holes on your farm, acreage, other residential or commercial property efficient and easy to do. A continuous spiral cutting bit is designed to avoid clogging and will drill holes up to 48" in depth. Perfect for preparing a property for tree planting or sign and fence installation.

A precision designed, high grade direct drive planetary gear system delivers high torque and accuracy in a compact package. Capable of driving a 48" bit (one 12" bit included) and has a pressure rating of 2250 PSI for operating on machines with a 5-17 GPM flow rate. Hydraulic hoses and flat face couplers are also included.

Overall heavy-duty construction makes this auger attachment durable and built to last for years of ground-breaking, hole digging performance. The locking collar has been engineered to keep the auger from swinging prior to digging and upon removal. Excavate rocks, dirt and soil to install signs, put in fence posts or utility poles, plant trees and so much more.

TMG Industrial Skid Steer Post Hole Auger Drive Attachment, 12" Diameter

Auger, 48" Drilling Depth, Standard Flow, TMG-SAG12
