Product Description

The TMG-SBG72 Skid Steer Hydraulic Round Bale Gripper/Squeeze is an excellent alternative to traditional bale spears or other forms of bale collection that rough up and damage your bales. Heavy-duty hydraulic tubular arms open to a maximum 72" width to accommodate bales of all shapes and sizes up to 2500 lb. Perfect attachment for your agricultural operations to keep your hard grown investments safe and secure during the collection and transport process.

If you're looking to stack hay bales in your barn or maneuver them around to different flocks of livestock, this bale gripper will help you do so in an economical fashion that reduces wasted product from tearing and spillage. Made with a single hydraulic cylinder arm to reduce unnecessary components and prolong the lifespan of the unit. Overall industrial construction is built to last and work hard for you for many years to come.

This squeeze is fitted with a universal quick-mount that easily hooks up to your skid steer and transitions quickly between other attachments. Dual kickstands have also been equipped for level storage when not in use.
