 - Max. tire width capacity: 30"
 - Max. chuck centre height: 34"
 - Breaker arm assembly slide: 34-½"
 - Max. operating pressure: 2000 PSI
 - Bead breaker force: 6600 lb
 - Clamping power: 12000 lb
 - Operation voltage: 24 VAC
 - Acoustic noise: <70 dB
 - Bead positioning clamp included
 - Pry bar included
 -
 - This product is packed in a wood crate shipping box
 - Shipping dimension: 80" x 62" x 33" (L x W x H)
 - Shipping weight: 1390 lb

Product Description

The TMG-TTC26 Heavy-Duty Truck Tire Changer is a fundamental machine for your tire shop or large scale automotive service department. Perfect for tubeless truck, off-road and agricultural tires up to 63". With a maximum rim size of 26" and 3300 lb weight capacity, this machine can easily change the tires of semi-trucks, trailers, forklifts, tractors and other machinery.

An integrated bead breaker with disc head attachment and bead hook exert an enormous amount of air pressure through the tire to help separate it from the rim for dramatically increased work efficiency. Self-centering hydraulic clamping chuck with four jaws keeps the tire firmly in place while working, and is powered by its own reliable CSA certified electric motor.

Portable foot pedal control console ensures superior protection and dynamic working positions for changing tires of all size, style, brand and class without damaging the rim or tire itself and maximizing operator safety. Save yourself and your employees exhausting labour and make everyone's day a little easier with this electrically powered and air pressurized compact automotive shop essential.
