Product Description

The TMG-1500PML 1500 lb Portable Motorcycle/ATV Scissor Lift is a versatile and reliable solution for all your motorcycle and ATV lifting needs. With a lifting capacity of 1500 lb, this hydraulic lift is perfect for use in home garages, motorcycle shops, and detailing shops. The lift features a hinged and removable drive-on ramp, making it easy to load and unload your powersports vehicle. The hydraulic cylinder scissor lift design provides smooth and efficient lifting, operated by foot pedal air pump for added convenience.

Designed with practicality in mind, this lift comes with a removable rear wheel deck cut out, allowing for easy removal of rear wheels during maintenance or repairs. The front-wheel vise kit securely holds your vehicle in place during lifting, and the multi-position safety lock provides additional stability while work is being done.

A 10" bolt-on side panel extension is featured on each side, transforming the lift into a 48" wide work-platform, making it suitable for ATVs and other storage or repair purposes. The diamond plate steel tabletop also provides a durable and slip-resistant surface. With a maximum height of 32-1/2" and a minimum height of 7-1/4", this lift is designed to accommodate a wide range of motorcycle and ATV sizes.

TMG Industrial 1500-lb Portable Motorcycle/ATV Scissor Lift, 48" Work Platform, Side Extensions, Foot Pedal Air Pump, Front-wheel vise grip, TMG-1500PML
