

Sale Name: CRANBROOK, BC-SEPTEMBER 4th, 2024

LOT 190 - TMG Industrial 30" Portable Sawmill-Unused

Description

Features

- Powered by a 14 HP Kohler CH440 Command Pro Series engine which is widely known for its durability, strength, lifespan and reliability
- Belt driven transmission with clutch for superior power transfer between engine and machine, creates efficiency and allows for a smoother operation overall
- Built with heavy-gauge, solid 4-post carriage design that is strong and will stand up to heavy jobs and long hours even in remote locations
- Easy saw head hand-crank lifting mechanism that sits at waist height for effortless adjustability without bending over or being in awkward positions
- Permanent sealed SKF bearings that help avoid vibrational wear and tear, increasing the machines accuracy, performance output and longevity over time
- Two adjustable log clamps to avoid any movement or defects while cutting, will help to give you a clean final product every time

- Ability to precisely adjust the cut thickness of each log so you can mill the lumber to be whatever dimensions will fit your project
- Manual feed saw head with forward and reverse movement gives the user total control over the cutting process for maximum safety and desired outcome
- Creates a self-sustainable lumber solution for someone who has access to a lot of wood or lives in a heavily forested area; no more trips to the hardware store
-
-

Specifications

- Max. log diameter: 30"
- Max. board width: 21-1/2"
- Max. cut thickness: 7"
- Max. log length: 12'
- Track bed length: 14-1/2'
- Shipping weight: 960 lb

Saw blade system:

- Blade wheel diameter: 19"
- Blade wheel engagement: belt drive
- Blade guide: By roller
- Blade tension: By adjustable lever
- Blade lubrication: 10-litre water tank
- Blade specifications:
 - Blade length: 158" (4013mm)
 - Blade width: 1.24"-1.34" (31.5-34 mm)
 - Blade kerf: 0.035"-0.43" (0.9-1.1 mm)

Engine:

- 14HP Kohler CH440 Command Pro series engine
- Displacement: 429 CC
- Start type: Recoil
- Cast-iron cylinder liners
- Oil Sentry automatic shutdown

Product Description

The TMG-PSM30 Portable Sawmill puts the power and precision of a full scale lumber processing facility into your own two hands. A 14 HP Kohler engine and belt driven power transmission ensures this machine is run on strength and reliability. You'll work with peace of mind knowing it can serve you or your business for years to come.

Built on a heavy-gauge, 4 post carriage saw head design which means this saw can handle the weight and erosion of even your biggest projects. Permanent sealed SKF bearings avoid vibrational wear and tear to make sure you never miss your mark, and avoid wasting time and material in the process. By using the easy saw head hand-crank lifting mechanism, and forward/reverse manual operating system, you have total control over the entire job and are always guaranteed to get the perfect cut.

Capable of cutting logs up to 12' long, 28" wide and 30" in diameter, you'll be able to say goodbye to your endless trips to the hardware store. This TMG Industrial 30" portable sawmill is designed to operate anywhere, and can be easily transported and modified to fit your every need.

TMG Industrial 30" Portable Sawmill, 14 HP Kohler Engine, 28" Board Width, 12' Log Length, 14.5' Track Bed, TMG-PSM30
