Product Description

The TMG-Q300 Heavy-Duty Walk Behind Concrete Floor Saw delivers heavy duty cutting power in a compact, lightweight and easy to handle design. It's powered by a reliable 6.5 HP Loncin G200F gasoline engine that makes your driveway repair, highway work, foundation jobs and any other concrete or asphalt cutting work simple and easy to do.

Equipped with a durable 14" concrete blade made for heavy-duty cutting that can be adjusted with the easy-to-use top-mounted hand crank for a maximum cutting depth of 3". A large water tank has been rigged to the unit for dust suppression and superior blade cutting ability. The long push bar handle reduces vibration and allows for all day cutting operations to ensure you always get the job done.

You can easily access the blade because of its left and right mount design, so changing blades and inspecting them for quality is never an issue. The accurate pointer wheel assembly also ensures you stay in line with your cut and maximizes overall work efficiency. This saw is a convenient piece of equipment to always have on hand at your concrete, demolition or asphalt company.

TMG Industrial Heavy-Duty Walk Behind Concrete Floor Saw, w/6.5 HP Loncin Gasoline Engine, 3" Cutting Depth, TMG-Q300
