- The Articulating Skid Steer Brush Cutter Attachment is designed for cutting banks, fence lines, and right of ways. It also is an excellent choice for clearing pond banks and cutting trails. With a reach of 96" when extended horizontally and a vertical reach of sixteen feet or more (depending on the reach height of your machine). This brush cutter will also swing to the right 90° and can be used as a side cutter. A range of hydraulic flow of 14-20 gpm is required. Come with In-Cab Universal Electrical Attachment Control Kit.

Lots 73-74 are grouped together. Timed grouping of lots allows similar lots to be bundled together and sold. This gives interested buyers the option to bid on one lot or multiple lots within the group with all lots remaining open until bidding ends for the group. Each lot can be sold at a different price and/or to a different buyer.
