LOT 292 - TMG Industrial Gas Generator 12,000Watt-Unused

Description

The TMG Industrial 12000GE generator provides 12,000 watts of starting power and 9,000 watts of running power. It's ideal for job sites or as backup power for your home during emergencies. One-touch electric start makes this generator easy to start in the dark during a power outage, and a 7-gallon all-steel fuel tank with a built-in fuel gauge means an average run time of 7 hours at 50% load with a quiet operating volume of 78 dBA.

A powerful 459 cc OHV engine connected to an efficient, high-performance alternator allows this generator to power refrigerators, pumps, air conditioners, lights, TV, and

more all the same time. For use at job sites, it is capable of powering up to 5 power tools simultaneously. The GFCI-protected outlets, weather-resistant outlet covers and solid 1-1/4" heavy-duty frame make this generator safe to use and durable enough to handle job site conditions. Added bonuses are the never-flat solid wheels and 12 V DC plug with a USB adapter.

Features

- 459 cc displacement, four-stroke air-cooled OHV engine
- Efficient, high-performance alternator
- Easy reach control panel
- AVR system and electronic ignition
- Weather resistance covered outlets
- Never flat maintenance free wheels
- One-touch electric start
- 7 hours run time at 50% load charge
- 78 dB operation
- (4) 120V AC 20A 5-20R outlets
- (1) 120V AC 30A L5-30R outlet
- (1) 120/240V AC 50A 14-50R outlet
- (1) 12V DC outlet
- Emission compliance: EPA compliance
- Electric safety certification: CSA certified

Specifications

- Starting watts: 12,000
- Running watts: 9,000
- Rated frequency: 60 Hz
- Rated voltage: 120/240V AC
- Phase: Single
- Insulation class: F
- Factor: 1.0
- Fuel tank capacity: 7 US gallon
- Max ambient temperature: 40 °C
- Engine oil supplied: 1.1 Qt 10W-30
- DC output: 12 V DC, 11 A

**Unused TMG Industrial 12,000 Watt Gasoline Generator, Electric Start,
7-Hour Run Time, 120V/240VAC, TMG-12000G**

Lots 290, 292, 305 are grouped together. Timed grouping of lots allows similar lots to be bundled together and sold. This gives interested buyers the option to bid on one lot or multiple lots within the group with all lots remaining open until bidding ends for the group. Each lot can be sold at a different price and/or to a different buyer.
