LOT 327 - TMG Industrial Pallet Jack Scale Truck 4500Lb.-Unused

Description

Features

- Heavy-duty, long-lasting, reliable and convenient piece of equipment to support all your shipping, production and logistics operations
- 4500 lb weight capacity to accommodate varying loads in a warehouse, storage, shipping, shop, garage or other commercial environment
- Maximize efficiency by moving and weighing deliveries at the same time while saving space and costs by eliminating the need for a separate scale
- 48" tapered forks have a 27" opening and easily slide in and out of pallets of heavy-duty polyurethane wheels and rollers
- 220° steering arc gives the operator incredible maneuverability and control over every skid to park, organize and manage the layout of their floor space
- Easily readable 2" LCD display has 1" lettering and easily switches between pounds and kilograms with an accurate reading of +/- 1 lb

- LCD display has an auto tare feature and auto shut-off if left unused for 15 minutes to prolong the lifespan of the lithium rechargeable battery

- Lithium rechargeable battery
- Polyurethane wheels & rollers
- Shipping weight: 255 l

Product Description

The TMG-PJ45S Pallet Jack Scale Truck is a heavy-duty, long-lasting, reliable and convenient piece of equipment to support all your shipping, production and logistics operations. Allows you to weigh inbound and outbound freight going to and from the warehouse, off the truck or between couriers and customers. Move skids and accurately weigh them at the same time for the precise management and organization of your inventory.

48" tapered forks with a 27" opening easily slide in and out of pallets on heavy-duty polyurethane wheels and rollers. This pallet jack has a 4500 lb weight capacity to accommodate varying loads with a 220° steering arc for easy maneuverability around your shop, garage or shipping depot.

The 2" LCD display with 1" lettering easily switches between pounds and kilograms, and is accurate to within +/- 1 lb. It also has an auto tare feature and will automatically shut off the screen if left unused for 15 minutes, increasing the lifespan of the lithium rechargeable battery.

The scale is not certified for legal-for-trade use
