

**Sale Name:** GREENWOOD, BC-OCTOBER 19th, 2024

**LOT 333 - TMG Industrial 78" Rock Skeleton Bucket-Unused**

### Description

- Built to handle jobs in demolition, recycling, scrap yards, forestry, agriculture, landscaping, construction and more
- 78" of working width allows you to work with varying load sizes and awkward debris piles that need the loose material separated
- 4" skeleton tine spacing allows you to sift larger rocks from piles of dirt, gravel and other mixed aggregate that needs partitioning
- Serrated cutting edges will dig into the ground with the force of your skid steer to reach under the earth or heavy piles to process large loads
- Made from solid steel and has a tare weight of over 390 lb; no mechanical or moving parts so there will be little to no maintenance over the years
- Compatible with 45-70 HP medium frame skid steers; dependable attachment that can be used for a variety of purposes and stores easily when not in use
- Universal mount that will fit most skid steers, turning it into a multi-use, versatile jobsite asset that is strong and reliable
  - Compatible with 45-70 HP skid steers
  - Working width: 78"
  - Tine spacing: 4"
  - Tare weight: 390 lb
  - Built from solid steel
