

Sale Name: GREENWOOD, BC-MARCH 29, 2025

LOT 290 - TMG Industrial 30' x 40' PVC Fabric Container Shelter-Unused

Description

Features

- Mounted on containers or pony walls for maximum height, versatility and useability; can accommodate most job sites and provides a clean, professional covered space
- Avoid rusting of metals and warping of woods by stockpiling extra materials at your farm or worksite; keep them dry and extend their lifespan for use in future projects
- Easy to assemble and dismantle for efficient set up/tear down if moving from one job to another; could store and transport right in the storage container with other materials
- Commercial grade 3-layer galvanized steel frame structure is long lasting, dependable and resistant to rust, wear and corrosion
- Commercial grade triple-layer ripstop polyvinyl chloride (PVC) tarpaulin cover:
 - Stands strong against tearing, leaking, and chemical corrosion
 - Natural flame retardant, resistant to chemicals and oil

- UV protected and waterproof
- Fabric color: White
- Ample storage room with approximately 1200 square feet of covered space making for a spacious, protected outdoor area
- Designed with reduced truss spacing for maximum strength and stability as well as approx. 30' of entry/exit space that allows easy parking and dynamic workflow throughout
- Rigid end wall and partial drop front create a semi-enclosed space that protects your team and equipment from the elements while still letting air and light flow through.
- PVC fabric is thick, reliable and commonly used in large commercial structures like sports stadiums
 - Exact floor footprint: 30' (W) x 39'5" (L)
 - Truss spacing: 50"
 - Truss quantity: 10 groups
 - Truss tubes: 2.3" – 15 GA (approx.)
 - Purlin tubes: 1.65" – 16 GA (approx.)
 - Peak ceiling height from the base (the top of the container): 10'
 - The provided back wall structure is designed for standard container height. An extra 10" support is necessary installed for a high-cube (HC) container.
 - Cover material: 17 oz polyvinyl chloride (PVC) tarpaulin fabric
 - Welding required for all footplates
 - **Containers not included**
 -
 - The product is packed in a metal crate shipping box
 - Shipping dimension: 115" x 29" x 32" (L x W x H)
 - Shipping weight: 1760 l

Product Description

The TMG-ST3041CVF PVC Fabric Container Shelter with End Wall provides an easy to assemble, durable outdoor storage solution or workshop for your farm, construction site, equipment dealership and more.

Approximately 1200 square feet of covered space to stockpile materials, work on projects, park vehicles and accommodate all other needs big or small. Mounted on shipping containers or pony walls for maximum height and versatile useability whether you're working in remote, rural or industrial locations.

Made of strong, heavy-duty commercial grade polyvinyl chloride (PVC) fabric that is triple layered to prevent tearing and provide a long-lasting shelter covering for many years to come. This fabric is a natural flame retardant, commonly used in large commercial structures such as sports stadiums and event halls. Known for its thickness, superior safety and protection, PVC fabric is a reliable outdoor storage cover solution.

Roughly 30' of entry space provides a huge opening to allow workflow throughout, and a rigid end wall protects you from the elements while still letting light and air into the structure. Use this shelter as storage for tools, large equipment, ongoing jobs, maintenance and mechanical labour. The PVC fabric is very tough and comes in a vibrant white colour that reflects

UV rays but allows light to permeate through. The natural illuminating quality will help you save on utility costs and provide all day use even when it's cloudy

**TMG Industrial 30' x 40' PVC Fabric Container Peak Roof Shelter with
End Wall & Partial Front Drop Pro Series, Fire Retardant, Water
Resistant, UV Protected, TMG-ST3041CVF**
