- Min Height: 18" (465mm)
- Max Height: 28" (715mm)
- Net Weight: 62 lb
- Finish: Orange/black
- Material: All steel

Product Description

The TMG-AJS12 Jack Stand has a 12 ton (26,000 lb) carrying capacity for the safe support of your vehicle, agricultural or other industrial pieces of equipment. The solid steel handle and unified frame construction ensures a solid foundation that is reliable and built to last.

Designed with a self-locking ratchet adjustment system that makes this stand easy to adapt to different height requirements and ensures a safe holding environment through the compressive forces of the vehicle it's holding against the teeth of the jack stand.

A large, heavy-duty saddle area makes the proper maneuvering of this stand underneath your vehicle simple and easy to do. When you're finished, the ratchet style allows for the fast lowering of the stand to its original position for quick and efficient storage

TMG Industrial 12 Ton Jack Stand, Ratchet Style, Large Saddle, Unified Frame Construction, Solid Steel Handle, 1 Pair, TMG-AJS12
