

**Sale Name:** GREENWOOD-May 13th, 2023

**LOT 53 - TMG Industrial 35 Ton Air Hydraulic Axle Jack-Unused**

**Shipping Available** YES

**Delivery Available** YES

### **Description**

#### **Features**

- 35 ton (77,000 lb) lifting capacity for all your undercarriage mechanical, tire change, equipment or vehicle lifting needs
- Long handle gives you plenty of reach to easily lift vehicles or equipment with long overhangs and adjust the height between 10" and 19"
- Vertical top is powered pneumatically so you can use this jack whether or not your near an air supply
- External double tension spring structure that ensures restoring forces for a gentle lowering action and less wear on the jack
- Air filter is built right into the pneumatic switch to help mitigate the chances of debris entering into and damaging the unit over time

## Specifications

- Screw extends: 4-1/2" (115mm)
- Air pressure: 100-175 PSI
- Net weight: 101 lb
- Finish: Orange + black
- Material: Steel

## Product Description

**The TMG-AJX35 Professional Air Hydraulic Axle Jack has a 35 ton (77,000 lb) lifting capacity for all your undercarriage mechanical, tire change, and general equipment or vehicle lifting needs.**

A vertical top can be controlled pneumatically so the operator has the versatility to be able to use this jack whether they're near an air source or not.

The external double tension spring structure ensures restoring forces, and an air filter has also been built into the pneumatic switch to reduce the chance of debris making its way into the unit. These features combine for reliable lift assistance that will serve you for many years to come

**TMG Industrial 35 Ton (77,000 lb) Professional Air Hydraulic Axle Jack,**

**Manual & Pneumatic Control, Double Springs, 19" Lift Height, TMG-AJX35**
