LOT 110 - TMG Industrial 3 Point Hitch Cement Mixer-Unused

Shipping Available YES

Delivery Available YES

Description

Features

- Use to prepare concrete, cement, mortar, stucco and other mixing products without the need to hire a cement truck or labourers
- Empty drum volume of 5 cu-ft mixing capacity so you can mix large quantities of product for any small to midsize job
- 18" mouth opening allows for easy adding of mixing ingredients and smooth disposal whenever products are ready for pouring
- Equipped with 3-point hitch linkage and compatible with Category 1 hookups that will work with most 20-30+ HP tractors

- Harness the power of your tractor through the PTO driveline transmission shaft that saves you and your crew from backbreaking physical work
- Chain-driven, heavy-duty steel drum has a maximum rotary speed of 70 RPM and uses internal paddles for uniform mixing and clean dumping
- This mixer is powder coated to help it stand up to tough mixing work and it makes it highly resistant to rust, wear and corrosion for long lasting durability

- PTO drive shaft include
- Shipping weight: 345 lb

Product Description

The TMG-TCM5 3-Point Hitch Cement Mixer is designed to save you time, money and labour around your farm, commercial property or small to midsize concrete job sites. It has an empty drum volume of five cu-ft mixing capacity that will keep your mixed product ready for when you need it. Compatible with cement, stucco, mortar, concrete and other mixed products.

Put the power of your tractor to work through this mixer's 3-point, Category 1 hookup and PTO driveline shaft that runs the chain-driven drum. No more mixing in wheelbarrows or hauling cement in pails. Mix right on site and have the freedom to work wherever your tractor can take you. For projects like driveway pouring, masonry walls, BBQ pits, setting sign posts, fencing, footings, shed bases and so much more.

This steel mixing drum features heavy-duty internal paddles for uniform mixing and clean dumping that produces a consistent product every time. A 18" mouth opening provides ample room for putting in sand, cement and water, also allowing for easy dispensing once products are ready for pouring. Powder coated for long lasting use and durability that will stand up to tough mixing projects for many years to come.

**TMG Industrial 5 Cu-Ft 3-Point Hitch Cement Mixer, PTO Shaft Included,
Category 1 Hookup, TMG-TCM5**
